

Opti-Mizer Max - Ethanol Fuel Treatment - 16 oz

R61612M

Details

Opti-Mizer MAX ethanol fuel treatment and stabilizer is designed to eliminate most ethanol problems by lubricating, cleaning and clearing fuel systems of water, resins, gums and carbon deposits while keeping fuel fresh and protected. The phase separation threshold is raised allowing fuel to tolerate more water before separation and lessens ethanol fuel damage with 10 times the standard anti-corrosion capabilities. Excellent for 4-cycle mowers, cars and generators.

- Ethanol fuel treatment stabilizer
- Eliminates most ethanol problems
- Lubricates, cleans, and clears fuel systems of water, resins, gums, and carbon deposits
- Keeps fuel fresh
- Raises the phase separation threshold
- Lessens ethanol fuel damage
- 16 oz bottle treats 60 gallons
