

Mystik JT-6 Grease - Multi-Purpose

R6228

Details

Mystik Multi-Purpose Grease is an extremely water resistant and water insoluble product. Ideal for extreme pressure loads, slow to medium speed bearings, greased chassis points and water pumps. Light colored, low staining and has a very low oil separation rate. Highly water wash resistant. Stays in place better than most other greases and performs in extreme conditions without breaking down. Fully rust and oxidation inhibited. 14 oz. Case of 10.

- Medium temperature range grease
- Extremely water resistant
- Water insoluble
- Ideal for extreme pressure loads
- Light colored
- Very low oil separation rate
- Performs in extreme conditions without breaking down
- Fully rust and oxidation inhibited
