

Envirologic 500 Dust Control - 1 gal

RC50001

Details

Dust and its undesirable results are apparent to everyone. Most dust control methods are either unsuitable for the environment or are ineffective. EnviroLogic 500 is a unique water extendable, biodegradable and non-hazardous dust suppressant and concentrate that works. This product is specially formulated to safely coat dust particles and prevent them from becoming airborne. It has no adverse environmental effects.

- Coats dust particles
- No adverse environmental effects
- Water extendable
- Biodegradable
- Non-hazardous dust suppressant
