

Corona Razor Tooth Pruning Saw - 13in

RCRS7120

Details

The 13" curved saw blade on the Razor Tooth Pruning Saw is great for quick removal of medium to large branches. Each razor tooth is sharpened on three sides for smooth, clean cuts and long service life. The curved blade design puts more teeth into the branch for faster cutting. Cushioned, co-molded pistol grip handle with hanging hole for storage. Replaceable 13" tempered steel alloy blade.

- For use on medium to large branches
- 3-sided razor teeth for smooth cuts
- Impulsed-hardened teeth for long life
- Cushioned, plastic pistol grip handle
- Hanging hole for easy storage
