

Corona Razor Tooth Saw - 18in RCRS7510D

Details

The 18 inch Corona RazorTOOTH Saw features a curved blade design cutting twice as fast as a conventional saw blade. The whetstone-ground razor teeth are sharpened on 3 sides then impulse hardened. Friction-reducing, rust resistant, tempered carbon-steel alloy with hard-coating allows the razor teeth to glide through wood on the pull stroke quickly and efficiently. The ergonomic non-slip D-handle is designed for gloved or 2-handed operation.

- 18 in. Curved Blade
- Cuts 2X More Than Conventional Saws
- Whetstone-ground Razor Teeth are Sharpened on 3 Sides
- Friction-reducing Hard Coating to Cut Easily
- Ergonomic Grip for All-sized Hands Comfortably

Blades with up to 6 teeth per inch adds greater opportunities to cut wood limbs on cross-cut

Chrome-finish coating for smooth action & blade upkeep

Finish up to 2X Faster with Razor-Tooth Saw Technology

Ergonomic non-slip D-Shaped handle provides comfort on the job
