

Tire - 23x10.50-12 Nhs (4 Ply) Carlisle

Industrial Trax

RCT599045

Details

The Carlisle Industrial Trax tire is designed to excel in hard surface utility vehicle applications. With its non-directional tread pattern, this tire offers easy handling on hard surfaces, ensuring stability and control. Whether you're operating utility golf carts or concession vehicles, the Industrial Trax tire delivers reliable performance and durability for heavy-duty hard surface applications. Trust in the Carlisle Industrial Trax tire to provide the traction and reliability needed to power your work.

- Non-directional tread pattern for easy handling on hard surfaces
- Primarily used for heavy-duty hard surface applications such as utility carts or concession carts
