

Cable - 18 GA Black 6 Conductor 250'

RG180040-250

Details

"18-Multi" - This is a cable with varying numbers of 18 AWG conductors, ranging from 2 to 25. It is used primarily in residential and small commercial irrigation projects. The irrigation cable shall incorporate enough wires to accommodate all the valves it is designed to control, plus some spares for future expansion. For example, if the cable will activate 6 valves, then the number of wires needed is: 6 hot + 1 common + 2 spares = 9 wires. This cable would be called out as 18 AWG/9c. The construction shall include insulated solid copper conductors and an overall PE jacket. The cable shall be UL listed for direct burial. Paige Electric Co., LP specification number P7183D.
