

Underhill Anti-Foam Liquid Foam Preventer & Defoamer - 1 Qt. Bottle

RGAF1Q

Details

Anti-foaming and de-foaming agent to suppress and prevent foam formation during mixing and in filling and recirculation in mix tanks. Controlling foam reduces filling time and lessens overflow waste while improving spray performance. The silicone and surfactant blend works in tandem to quickly dissipate troublesome foam that forms during agitation. Use 1 to 2 fl.oz. per 100 gallon of spray mixture. 1 Qt (946 ml) bottle.

Specifications

Manufacturer	Underhill
Container Size	1 qt
