

Hydro-Wet Premium Pellet - 8 oz - Ea. RGHYPEL-1

Details

Same quality Hydro-Wet product in a concentrated pellet form. Pellets help to cool the canopy temperatures of turfgrass during high heat and stress conditions. Use to supplement irrigation application of Hydro-Wet Injectable for improved water infiltration and control of localized dry spot in turf. Add Hydro-Wet Pellets at 2 to 4 minutes per 1000 sq. ft. (100 sq M). Use applicator gun. 6 oz pellets.
