

HGS Security Enclosure - 10x24x22 Tan

RGSE1023TN

Details

The most secure GuardShack enclosure designed with schedule 40 steel pipe and expanded metal cage with only one lock needed. The body with hinged gate design allows for full use of internal dimensions. The deluxe integrated Lock Shield Bracket provides added protection from bolt cutters. All mounting points are internal and cannot be accessed unless the cage is opened. Only a 3/8" gap between the pad and enclosure. For maximum security and easy installation, the optional ES-1, RGSE1026, enclosure setter is optional. Simply bolt the cage to the setter with the provided hardware, set in wet concrete and walk away. 10"W x 24"H x 22"L. Woodland Tan.

- Most secure enclosure
- Stainless steel hardware
- Lock Shield Brackets protect against bolt cutters
- All mounting points internal
- Covers over 4 dozen types and sizes of backflows
- Hinged body with gate design
