

Underhill Water Fx Dry Water Conditioner/Acidifying Agent - 4 lb. Jar

RGWFX04

Details

A dry water conditioner/acidifying agent to effectively sequester hard water minerals such as calcium, magnesium and iron that may interfere with many pesticide active ingredients. Use to lower spray water pH to ensure full effectiveness of many insecticides, fungicides and herbicide sprays that perform better in moderately acidic water. Many pesticide active ingredients will be more effective and more readily available to the plant with the use of Water Fx. To adjust desired pH and optimize performance of tank mix active ingredients and to lower spray water pH and sequester hard water minerals in tank sprays, use 1/2 lb. (227 gm) per 100 gal (378.5 L)

- Dry water conditioner/acidifying agent to sequester hard water minerals
- Lowers spray water pH to ensure full effectiveness of many insecticides, fungicides and herbicide sprays that perform better
- 1/2 lb (227 gm) per 100 gal (378.5 L)
