

Rat Bait Station RP2895

Details

A double-tunnel bait station designed for mouse or rat treatment programs using blocks, loose grain, glue strips or traps. Constructed of heavy duty polypropylene with rotating hinge that won't crack or break in cold weather. Unique locking barb mechanism reduces the risk of accidental access, protecting children and pets. Moisture resistant. Anchoring slot to secure station. Bait tray for quick and easy clean-out. Use indoor or outdoor. 13" x 8".

- Double tunnel design accommodates use of various treatments
- Lock resists accidental access
- Quick and easy clean-out
- Indoor or outdoor use
- Moisture resistant
