

Portapump Jr. RSG03640

Details

Convert your handheld string trimmer or brush cutter into a powerful, submersible pump. Simply snap in place and pull the trigger to remove standing water from bunkers, footings, trenches, pits, and valve boxes. Made of heavy-duty aluminum with a 1-1/4" hose connection at the pump housing and suction strainer. Pumps 30 GPM, 1,800 GPH. One person operation, no tools or adapters, no suction hose or priming and no extension cord required. Heavy duty 15' and 30' discharge hose sold separately.
