

Swepco - Hi Plus 105 Grease - Tube

Case/30
RSW105-30

Details

SWEPCO 105 High Impact Plus Grease is a premium quality, multi-purpose grease designed for use in a wide range of severe service applications. Its tough, fibrous consistency, high shock resistance, high film strength and naturally high affinity for metal means it stays put under the most demanding conditions, assuring consistent, uniform lubrication. SWEPCO 105's superior water resistance, temperature and chemical stability and corrosion protection provide a wider margin of safety when expensive, heavy-duty equipment must be operated in severe service.

- High film strength, tough, fibrous consistency
- Contains SWEPCO's proprietary anti-friction and anti-wear additive, LUBIUM
- High alkaline reserve
- USDA approved for use in closed systems
- High resistance to fresh and salt water, dust, grit and acids
- High temperature performance up to 375 degrees F (190 degrees C)
- Rust and corrosion inhibitors, oxidation protection
