

3M Maintenance Sorbent - Gray

R3M29071

Details

Maintenance Sorbents are all-purpose sorbents. Ideal for plants and facilities, the Sorbent cleans up non-aggressive fluids, including cutting oil, coolants, aqueous-based solvents, and petroleum. Maintenance Sorbents are dust-free and contain no abrasive granules that could damage drainage equipment. A scrim on one side increases strength and helps eliminate linting. It is dispensed from a carrying/dispenser box in the form of a 5 inch wide continuous roll 50 feet long with perforations every 16 inches.

- Ideal spill response for non-aggressive fluids
- Dust-free
- No abrasives to damage drainage equipment
- Scrim on one side
- Dispensed in continuous roll
