

3M Petroleum Spill Kit

R3M46289

Details

Contain and absorb petroleum-based liquid spills and most hazardous chemical liquids spills of up to 5 gallons. 3M Petroll and Chemroll make it possible to be used as brooms, pillows, pads or rolls, making Sorbents the most versatile response products on the market today. Size: 5" x 26' with perforations every 16" (fully opens to 19" x 26') Includes temporary disposal bag and tie. Because of its unique construction and compressibility it can be stored where other spill kits will not fit. *Due to excessive air freight charges, these items will be shipped ground freight.
