

10 Gallon Round Slatted Receptacle

RP106100

Details

Good looking and practical, too! Recycled plastic slat construction and a Rubbermaid trash container with snap-on lid create a great combination for long-lasting service. Stainless steel frame and stainless steel rivets prevent rust and corrosion. Optional recycled plastic lid with center opening or solid lid with handle available. Optional stainless steel spike base or portable round aluminum base available. Mounting pipe adapter kit required when using optional bases or when pole mounting. Constructed of 1/2" x 2-1/2" slats.
